(instructions will be emailed to paid members list!)

southbaypath.org

21-0801 – Keith Duncan; Mills–Peninsula

53-year-old F underwent TAH/BSO for complex atypical hyperplasia. Sentinel lymph node bx shown.

Diagnosis: _____

21-0802 – Nicholas Ladwig; UCSF

73-year-old F with non-painful, ball-like vulvar mas (3cm) present for 3 months.

Diagnosis: _____

21-0803 – Marie Perrone; Cascade Pathology Services; Portland, OR

69-year-old M with cystic posterior neck lump. MRI reported: well-circumscribed 11x8x22mm right posterior neck cystic mass deep to trapezius, no reduced diffusion to suggest abscess with minimal surrounding stranding to suggest necrotic lymph node; elongated appearance may suggest cystic schwannoma or lymphocele. FNA with cell block performed.

Diagnosis: _____

21-0804 Richard Garcia-Kennedy; CPMC

36-year-old M undergoes right colon biopsy, r/o inflammation.

Diagnosis: _____

21-0805 – Ankur Sangoi; El Camino Hospital

Middle-aged adult F undergoes partial nephrectomy for 8cm renal mass.

Diagnosis: _____

21-0806 – Ankur Sangoi; El Camino Hospital

41-year-old M with 5.3cm testicular mass, grossly extending into hilar soft tissue. Section of central mass shown.

Diagnosis: _____

21-0807 – Ankur Sangoi; El Camino Hospital

68-year-old F with hypersensitivity pneumonitis with suspected pneumonia and acute hypoxemic failure requiring intubation and subsequent steroids, who presented with acute onset shortness of breath. Despite intubation for worsening respiratory failure and steroids, she died. Section of grossly unremarkable shown.

21-0808 – Ankur Sangoi; El Camino Hospital

Adult human undergoes radical nephrectomy. Representative section of renal mass shown. What is the immunostain shown here?

Diagnosis: _____

About CME

The South Bay Pathology Society is accredited by the Institute for Medical Quality/California Medical Association (IMQ/CMA) to provide continuing medical education for physicians.

The South Bay Pathology Society designates this live activity for a maximum of 1 AMA PRA Category 1 Credit™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

For physicians participating in Continuing Certification (CC) through the American Board of Pathology, this activity meets requirements for both Lifelong Learning (Part II) and Self-Assessment Module (SAM) credit hours (upon successful completion of a post-activity test with a passing rate of 80% correct answers).
